

Online Time, Task & Project Management

Intervals is a web-based project management application that marries time tracking and task management in a collaborative online space with powerful reporting. Start your free 30-day trial at www.myintervals.com

Benefits of using Intervals

- Keep project scope and budget under control
- Increase revenue — bill more hours
- Get started right away — easy to implement, no software to install
- Track your time and tasks more efficiently and accurately
- Invoice early and often, and get paid quicker
- Centralize your team and processes
- Spend more time working and less time managing projects
- International friendly — Intervals is being used in 105 countries and supports over 60 international locales

“Intervals has quickly become the backbone of our business and thanks to it we are running smoother than we ever thought possible!”

— Sam Hembury @ Evado Media

Intervals is ideal for...

- web design & development firms
- creative agencies
- PR firms
- IT service companies
- start-up companies in any sector
- departments within larger companies

“Intervals takes the pain out of running your business.”

— Matt Dandurand @ Media Contour

“We were able to dump our two separate time tracking and issue tracking systems for one system that does both jobs better.”

— Andrew Embler @ Concrete Websites
